1. Cut out the square from the second page. Place it face down. Fold it in half to make a rectangle. Then reopen it. Fold the square in half to make a triangle. Fold that triangle in half. Then reopen it back to the original square.

2. Fold the top edge down. While doing that, press in the sides to form a triangle.

3. Make sure the eyes and logo are in the inside folds of the triangle. Place the triangle down with a blank side facing you.

4. Fold up the two outside points of the top layer so they meet in the middle. They will form a square.

5. On the square, fold the two outside points inward so they touch in the middle.

6. Fold the two top points of the top layer down so they meet the edge of the two triangles you folded in from step 5.

7. Fold the top edges down over the triangles folded from step 5.

8. Refold the top edges but this time push them into the small pocket on each triangle.

9. Your paper should look like the above. Flip it over and repeat steps 4 through 8.

10. There will be a small hole at the bottom of your paper. Using a strong breath, blow into the hole to inflate the box. You may need to do this a few times.

Upcycle common household supplies to create your own guitar!

Materials:
- Cereal box
- Cardboard tube (paper towel tube, etc.)
- Clothespins
- Rubber bands of various sizes
- Washi tape or duct tape
- Hot glue gun
- Box cutter or scissors

Directions:
1. Trace a large circle into the center of the cereal box and cut it out carefully.
2. Next, trace a circle on the top of the cereal box, using the cardboard tube as a guide. Attach the cardboard tube the traced circle using tape to seal the top of the box around the tube.
3. Stretch rubber bands of various sizes around the box. Tape the bands in place on top and bottom of the box.
4. Secure three “frets” to the top of the cardboard tube using a hot glue gun.
