BUCKLE UP! If you don't they won't.

4 STEPS FOR KIDS

Step 1-Rear-Facing Seats

- Infant only or rear-facing convertible seat.
- Newborn to at least 1 year of age and at least 20 pounds.
- May stay rear-facing longer to maximum rear-facing weight limit of infant or convertible seat.

Step 2-Forward-Facing Seats (with a harness)

- Convertible or combination seat.
- Children must be at least one year of age and 20 pounds.
- Children should remain in 5-point harness until they reach the top weight or height limit allowed.

Step 3-Booster Seats (high-back or backless)

- Children under 8 years of age OR under 4'9" in height.
- High-back or boosters must be used when the vehicle does not have a head-rest or if vehicle's seat back is lower than child's ears.
- Must be used with lap and shoulder belts.
- Never use with lap belt only.
- Recommended to use until child fits seat belt correctly as described below.

Step 4-Seat Belt

- Children 8 years of age OR 4'9" in height are permitted to use a seat belt, however, the seat belt should be checked for proper fit.
- To confirm if a child over 8 years old can safely ride in a seat belt alone, all of the following should occur:
 - ◆ Child can sit with back against vehicle seat back.
 - ◆ Knees bend naturally over the edge of vehicle seat.
 - ◆ Lap belt fits low and snug across top of thighs.
 - ◆ Shoulder belt crosses the collar-bone and center of chest.

**CALIFORNIA OFFICE
OF TRAFFIC SAFETY**

Funding for this program was provided by a grant from the California Office of Traffic Safety through the National Highway Traffic Safety Administration.

Protect your future...
Protect your children...
BUCKLE UP! If you don't they won't.

California law states each child **MUST** be properly restrained in a child safety seat, booster seat or other restraint system in the back seat, until the child is 8 years old OR at least 4'9" in height.

Exceptions are:

- There is no rear seat.
- The rear seats are side-facing jump seats.
- The child passenger restraint system (CPRS) cannot be installed properly in the rear seat.
- All rear seats are already occupied by children under the age of 12 years.
- Medical reasons require that the child not ride in the rear seat. The court may require satisfactory proof of the child's medical condition.

Additionally, the law states that a child may not ride in the front seat of a motor vehicle with an active passenger air bag if the child is: under one year of age, weighs less than 20 pounds, or is riding rear-facing in a CPRS.

Refer: www.chp.ca.gov or contact your local California Highway Patrol (CHP) office Child Safety Seat Fitting Station for more information and/or assistance with the installation of your CPRS. The CHP also offers the following:

- Child Safety Seat Check-Up Events.
- Traffic Safety Presentations, Classes, and Seminars.
- Educational Brochures.
- A Spotter Program where the public can report unrestrained children by calling 1-800-TELL-CHP.
- Disposal of Child Safety Seats at CHP offices.
